

José Andrés Orantes Guillén

B.S. in Data Science and Mathematics Engineering

+52 961 334 2907 | jagorantes10@gmail.com | [LinkedIn](#) | [GitHub](#) | Monterrey, Nuevo León

Professional Summary

B.S. in Data Science and Mathematics Engineering currently studying a Master in Applied Artificial Intelligence. I am particularly interested in Data Engineering, Artificial Intelligence and Data Science. I have professional experience mainly in data engineering and analysis. I have done academic projects related to areas of Data Science and Machine Learning like Titanic passengers' survival prediction, comment classification with NLP, or gravitational waves detection with TDA.

Education

Tecnológico de Monterrey

Estimated graduation date: june 2027

Master in Applied Artificial Intelligence | GPA: 93.83

Relevant Coursework: Natural Language Processing; Artificial Intelligence and Machine Learning; Big Data Analysis; Data Visualization

Tecnológico de Monterrey, Campus Monterrey Graduation date: june 2025 Profesional ID: 15025327

B.S. in Data Science and Mathematics Engineering | Concentration in Advanced Artificial Intelligence | GPA: 92.35

Relevant Coursework: Neural Network Design and Deep Learning; Use of Geometry and Topology for Data Science; Application of Multivariate Methods in Data Science

Experience

Enviaflores.com

Data Analyst (06/2025-Present)

- Execution and Design of Airflow DAGs for ETL processes, using Python and SQL queries for multiple source data extraction; structuring automated workflows that serve multiple areas of the company.
- I migrated SQL queries to Python to run them on AWS Lambda, improving efficiency and maintainability.
- Tuning of the time series prediction model, prophet, to reduce the error in demand forecasting.
- I write documentation about the code and logic of jobs in AWS Glue to facilitate their understanding and support.

Projects

TCA Software Solutions | Predictive model to estimate hotel room occupancy | 06/2025

Arca Continental | Machine Learning model for product recommendations based on buying history | 11/2024

Class Project | Titanic passengers survival prediction with a Machine Learning model | 09/2024

Class Project | Gravitational waves detection with TDA methods and Machine Learning | 06/2024

SIMA | Air quality analysis project in Nuevo León | 09/2023

Ternium | Natural Language Interpretation project for classification with various Machine Learning models | 02/2023

Skill and Languages

Languages: Upper Intermediate English (CEFR B2)

Software: Intermediate Python | Intermediate R | Excel | SQL | Power BI | Power Automate | Tableau | AWS | Snowflake | Git

Soft Skills: Teamwork; Attention to detail; Communication; Problem solving; Adaptability; Critical Thinking

Hard Skills: Data analysis; Statistical analysis; Data engineering; Machine Learning; Deep Learning; ETL

Continuing Education

(2026) Associate Python Developer / Datacamp

(2026) Generative AI in Action / IBM SkillsBuild

(2026) Introduction to PySpark / Datacamp

(2026) Certificado de Alta Especialidad: Inteligencia artificial y aprendizaje automático / Tecnológico de Monterrey

(2025) Certificado de Alta Especialidad: Visualización de datos / Tecnológico de Monterrey

(2025) Certificado de Alta Especialidad: Ciencia de datos / Tecnológico de Monterrey

- (2025) Enterprise Data Science in Practice / IBM SkillsBuild
- (2025) Introduction to Apache Airflow in Python / Datacamp
- (2025) Advanced Git / Datacamp
- (2025) Hands-On Essentials: Data Engineering Workshop / Snowflake
- (2025) Power BI / Santander Open Academy
- (2020) Python Data Structures by University of Michigan / Coursera
